# RALLY ACCESSORIES

Logitech® Rally offers a suite of accessories to accommodate a wide range of room sizes and configurations. Add Rally Mic Pods to extend audio coverage, and a second Rally Speaker to fill large rooms with clear, rich sound. Anchor mics to the table with Mic Pod Mounts, and manage under-table cabling with Rally Mic Pod Hub. Finish your installation with Rally Mounting Kit to secure components and cabling in place.

## RALLY MIC POD

- 1 Four microphones with eight beamforming elements provide a 15ft (4.5m) pickup range
- 2 9.6ft (2.95m) cable connects to Rally Table Hub, Rally Mic Pod Hub, or another Mic Pod
- 3 Mute button with LED status indicator
- 4 Technical fabric resists dirt and fingerprints
- 5 Input to daisy chain with another Mic Pod

## MIC POD MOUNT

- 1 Custom enclosure anchors Rally Mic Pod in place
- 2 Perimeter channel hides above-table cabling
- 3 Threaded spindle routes cables through grommet holes from 1.0 - 2.5in (25 - 65mm) in diameter
- 4 Detachable spool coils excess cable for neat under-table wiring

## RALLY MIC POD HUB

- 1 Three inputs for Mic Pods or additional Hubs
- 2 Single-cable connections to Mic Pods for clean cabling and ease of placement
- 3 Under-table mounting hardware included
- 4 9.6ft (2.95m) cable connects to another Mic Pod Hub or the Rally Table Hub

## RALLY MOUNTING KIT

- 1 Invertible camera bracket supports wall mounting and near-ceiling installation
- 2 Cable retainers for Table Hub and Display Hub keeps cables plugged in
- 3 Ventilated brackets secure Hubs under the table or to the wall
- 4 Low-profile speaker brackets for a floating appearance

## RALLY SPEAKER

- 1 Premium materials in slate gray complement high-style meeting rooms
- 2 Anti-vibration enclosure eliminates buzzing and interference
- 3 3in (76mm) speaker driver delivers rich, clear sound
- 4 Patent-pending suspension system isolates vibration within the enclosure
- 5 Acoustically transparent fabric for good looks and clear sound
- 6 9.6ft (2.95m) Mini-XLR cable connects to Rally Display Hub for both signal and power

## FEATURES & BENEFITS

### RALLY MIC POD

#### Hear Every Voice Clearly

With RightSound™ technology and multiple beamforming elements in every individual mic pod, the audio focus is always automatically on the active speaker.

#### Expanded Coverage

Up to seven Rally Mic Pods can be daisy-chained together with a single cable connection to the Rally Table Hub.

#### Premium, Low-Profile Design

Rally Mic Pods are elegant and deceptively small for their remarkable range and sensitivity, with non-slip pads to isolate the microphones from table vibrations.

#### An Equal Voice

Rally Mic Pod listens for and equalizes every voice, so you can hear and understand those with softer voices or who are seated farther away.

### MIC POD MOUNT

#### Perfectly Placed

Say goodbye to visible cables and wandering mic pods. Mic Pod Mount gives meeting room tables a finished look while keeping connections secure, meeting after meeting.

#### Fits Most Tables

Mic Pod Mount anchors mics and routes cables through grommet holes from 25 - 65mm (1 - 2.5in) in diameter, and adjusts to tables up to 50mm (2in) thick.

#### Secures Excess Cabling

Wrap excess cabling around the cable spool for a meeting room table that looks as organized below as it does from above. Secure the cable spool directly to Mic Pod Mount, or attach to another surface with included mounting hardware.

### RALLY MIC POD HUB

#### Any Table Shape

Rally Mic Pod Hub offers flexible cabling to suit any conference room layout—from the traditional boardrooms to U-shaped layouts.

#### Hidden Cabling

Eliminate cross-table cabling between mic pods by connecting them through grommets to hubs beneath the table.

#### Mic Pod Mobility

Rally Mic Pod Hub lets you connect each mic pod via a single cable. When meeting participants want to move a mic pod, they can do so without tugging on neighboring mic pods.

### RALLY SPEAKER

#### Front of Room Audio

Rally Speakers are designed for placement at the front of the room. Voices come from where you intuitively expect to hear them—so conversations feel natural and lifelike.

#### Anti-Vibration Enclosure

A patent-pending suspension system isolates vibration to prevent camera shake so that images remain clear and steady, even at high volume levels and when zoomed in.

#### Comfortable Volume

With sound coming from two speakers rather than one, voices carry throughout the room at a moderate volume level.

#### Logitech RightSound

RightSound technologies in Rally Speaker deliver full-range audio throughout meeting rooms while preserving mic pod sensitivity and echo cancellation performance.

**PRODUCT SPECIFICATIONS****Rally Mic Pod**

Pickup range: 15ft / 4.5m diameter

Four omnidirectional microphones forming eight acoustic beams

AEC (Acoustic Echo Cancellation)

VAD (Voice Activity Detector)

Background noise suppression

Mute button with LED status indicator

Captive 9.6ft (2.95m) 12-pin cable

Daisy chain up to 7 Rally Mic Pods

Frequency response: 90Hz-16kHz

Sensitivity: >-27dB +/-1dB @ 1Pa

Microphone data rate: 48kHz

**Rally Mic Pod Hub**

Three 12-pin connections for any combination of Rally Mic Pods or additional Rally Mic Pod Hubs

Under-table mounting hardware

Captive 9.6ft (2.95m) 12-pin cable

**Rally Speaker**

High-performance 3in (76mm) driver with rare-earth magnet

Patent-pending suspension system eliminates vibration-induced camera shake and audio interference

Mini XLR cable connects to Rally Display Hub for both signal and power

Speaker volume 95dB SPL @1W, 100dB SPL @7.5W, both +/-2dB at ½m

Sensitivity: 95+/-2dB SPL at ½m

Distortion: 200Hz-300Hz < 2.5%, 300Hz-10kHz < 1%@7.5W

Speaker sampling rate: 48kHz

**COMPATIBILITY AND CERTIFICATIONS****Rally Mic Pod**

Certified for Microsoft Skype® Room Systems and Certified for Microsoft® Teams

Zoom Certified

Certified for Google Hangouts™ Meet Hardware

Microsoft Cortana® certified

Cisco Jabber® and WebEx® compatible

Compatible with BlueJeans, BroadSoft®, GoToMeeting®, Vidyo™, and other video conferencing, recording, and broadcasting applications that support USB devices

**SYSTEM REQUIREMENTS****Rally Mic Pod**

Logitech Rally or Logitech Rally Plus

*Note: Rally Mic Pods connect to the table hub included with Logitech Rally systems, and are not compatible with the standalone USB Rally Camera.*

**Mic Pod Mount**

Table Thickness: 0.75 - 2.0in (20 - 50mm)

Grommet Hole Diameter: 1.0 - 2.5in (25 - 65mm)

**Rally Speaker**

Logitech Rally system with one speaker

Maximum speakers per system: 2

**Rally Mounting Kit**

Logitech Rally or Logitech Rally Plus

*Note: Rally Mounting Kit is designed for Logitech Rally systems only. A different mounting system is included with the standalone USB Rally Camera.*

**PRODUCT DIMENSIONS****Rally Mic Pod**

0.83in x 4.01in x 4.01in  
21mm x 102mm x 102mm

**Mic Pod Mount**

3.54in x 5.75in x 5.75in  
90mm x 146mm x 146mm

**Rally Mic Pod Hub**

0.63in x 4.01in x 4.01in  
16mm x 102mm x 102mm

**Rally Speaker**

4.05in x 17.67in x 3.15in  
103mm x 449mm x 80mm

**Speaker Bracket**

1.4in x 10.4in x 0.3in  
36mm x 266mm x 8mm

**Camera Bracket**

2.5in x 4.3in x 6.5in  
63mm x 109mm x 166mm

**Table Hub Bracket**

0.5in x 6.5in x 4.5in  
12mm x 164mm x 115mm

**Display Hub Bracket**

0.5in x 6.5in x 4.5in  
12mm x 164mm x 115mm

**Cable Retainer**

0.9in x 6.6in x 1.5in  
23mm x 164mm x 38mm
